

# Stand Off Pad

Improve farm life for both you and your valued animals

Bonnie's herd shelter and stand-off pad material is the perfect product to house your cows or to use outdoors. The thicker grade allows for harder wearing bedding that is also cost effective.

- Kiln dried and naturally air-dried timber
- Chunky particle size: 5-15cm in length
- Great for indoor and outdoor

**Primary usage** – Surfacing for herd shelters, wintering/stand-off pads. Reduce mud and access issue in waterlog prone areas.

**Key time frame** – Jan / Feb – Receive delivery during summer to your dry paddocks to ensure accessibility.

## ***Supporting sustainable farm activities***

*Material used to manufacture Bonnie's Animal Bedding is 100% recycled, kiln dried pine and air-dried pallet material, making it very dry and durable.*

## ***Direct to you, when you need it.***

*Shipped direct from the manufacturer and available all-year-round.*

\*Our bedding is manufactured & stored in our uncovered yard. If weather conditions have been wet then our end product will also be wet. We would expect it to dry out within 5-7 days. We will always recommend installing your bedding as early in the season as possible to avoid wet conditions during winter and to give it plenty of time to settle.
